RE: Site Inspection, DOE/019/021 and DOE/019/025, ML 38318

In 1982 Arlyn Sperry proposed to mine the placer sand bars at the confluence of the Delores and Colorado Rivers. Matrix Resources proposed to do the same in 1983. A June 3, 1987 site inspection could not find a trace of any mining activity. The lease has since reverted back to the original lease holder, Gail Tibbits.
